

STATE OF WASHINGTON  
DEPARTMENT OF ECOLOGY

**PERMIT**  
TO APPROPRIATE PUBLIC WATERS OF THE STATE OF WASHINGTON

- ☐ Surface Water (Issued in accordance with the provisions of Chapter 117, Laws of Washington for 1917, and amendments thereto, and the rules and regulations of the Department of Ecology.)
- ☒ Ground Water (Issued in accordance with the provisions of Chapter 263, Laws of Washington for 1945, and amendments thereto, and the rules and regulations of the Department of Ecology.)

PRIORITY DATE October 8, 1997	APPLICATION NUMBER G3-30115	PERMIT NUMBER G3-30115	CERTIFICATE NUMBER
----------------------------------	--------------------------------	---------------------------	--------------------

NAME  
Bob A. Morris

ADDRESS (STREET) (CITY) (STATE) (ZIP CODE)  
9112 North Seven Mile Road Nine Mile Falls Washington 99026

The applicant is pursuant to the Report of Examination which has been accepted by the applicant, hereby granted a permit to appropriate the following public waters of the State of Washington, subject to existing rights and to the limitations and provisions set herein.

**PUBLIC WATERS TO BE APPROPRIATED**

SOURCE  
A well

TRIBUTARY OF (IF SURFACE WATERS)

MAXIMUM CUBIC FEET PER SECOND	MAXIMUM GALLONS PER MINUTE 140	MAXIMUM ACRE FEET PER YEAR 36.8
-------------------------------	-----------------------------------	------------------------------------

QUANTITY, TYPE OF USE, PERIOD OF USE

120 gallons per minute, 35.3 acre-feet per year, seasonally, each year for the irrigation of 10.5 acres, 20 gallons per minute, 1.5 acre-feet per year, continuously, each year for single domestic supply and stockwater.

**LOCATION OF DIVERSION/WITHDRAWAL**

APPROXIMATE LOCATION OF DIVERSION--WITHDRAWAL

850 feet South and 75 feet East from the Northwest corner of Section 21.

LOCATED WITHIN (SMALLEST LEGAL SUBDIVISION)	SECTION	TOWNSHIP N.	RANGE, (E. OR W.) W.M.	W.R.I.A.	COUNTY
NW¼NW¼	21	26	42 E.	54	Spokane

**RECORDED PLATTED PROPERTY**

LOT	BLOCK	OF (GIVE NAME OF PLAT OR ADDITION)
-----	-------	------------------------------------

**LEGAL DESCRIPTION OF PROPERTY ON WHICH WATER IS TO BE USED**

West one-half of the following described property: The South 162.43 feet of the NW¼NW¼NW¼ and that portion of the SW¼NW¼NW¼ lying northerly of the county road known as Seven Mile Road, All in Section 21, Township 26 North, Range 42 E.W.M.; EXCEPT the East 165 feet thereof.

**DESCRIPTION OF PROPOSED WORKS**

Well, pump, irrigation system

**DEVELOPMENT SCHEDULE**

BEGIN PROJECT BY THIS DATE: August 1, 2004	COMPLETE PROJECT BY THIS DATE: August 1, 2006	WATER PUT TO FULL USE BY THIS DATE: August 1, 2008
---	--	---

**PROVISION**

All irrigation shall cease when the flow of the Spokane River falls below 200 cubic feet per second in the Spokane River below Little Falls Dam as measured by Avista Corporation. Additionally, when the elevation of Franklin D. Roosevelt Reservoir is at or below 1281 feet, all irrigation under this authorization shall cease when the flow of the Spokane River falls below 500 cubic feet per second (cfs). The elevation of Lake Roosevelt shall be measured at the United States Bureau of Reclamation (USBR) gage located at Grand Coulee Dam. Avista Corporation measures the flow in the Spokane River below Little Falls Dam. This flow has been tentatively established from revised recommendations of the Washington Department of Fish and Wildlife. The use of water under this permit is also subject to the continued cooperative arrangement with Avista Corporation and the Spokane Tribe and their maintenance of instream flows pursuant to that agreement. If Avista determines that protection of their senior power water right requires amendment of the cooperative arrangement, this permit will be subject to any future instream flow agreement with the Spokane Tribe or the USBR to protect Avista's interests and maintain adequate instream flow conditions for fish.

An approved measuring device shall be installed and maintained for each of the sources identified herein in accordance with the rule "Requirements for Measuring and Reporting Water Use," Chapter 173-173 WAC. Water use data shall be recorded weekly and maintained by the property owner for a minimum of five years, and shall be promptly submitted to Ecology upon request.

The rule above describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition Ecology for modifications to some of the requirements.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the records of water use that are kept to meet the above conditions, and to inspect at reasonable times any measuring device used to meet the above conditions.

Any future pump test data for the new well shall be submitted as it is obtained to the Department of Ecology.

The amount of water granted is a maximum limit that shall not be exceeded and the water user shall be entitled only to that amount of water within the specified limit that is beneficially used and required for the actual crop grown on the number of acres and the place of use specified.

This authorization to make use of public waters of the State is subject to existing rights, including any existing rights held by the United States for the benefit of Indians under treaty or otherwise.

A certificate of water right will not be issued until a final examination is made.

The water quantities and uses recommended and/or the number of acres to be irrigated may be reduced at the time of issuance of a final water right commensurate with the capacity of the installed system and the uses and/or the number of acres actually irrigated.

Nothing in this authorization shall be construed as satisfying other applicable federal, state, or local statutes, ordinances, or regulations.

Installation and maintenance of an access port as described in Ground Water Bulletin No. 1 is required. An airline and gauge may be installed in addition to the access port.

Provisions continued on Page 3

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Spokane, Washington,

this 26th day of August, 2003.

DATA REVIEW  
OK cac

Department of Ecology

by Cindy A. Christian  
Cindy A. Christian, Acting Section Manager

All water wells constructed within the State shall meet the minimum standards for construction and maintenance as provided under RCW 18.104 (Washington Water Well Construction Act of 1971) and Chapter 173-160 WAC (Minimum Standards for Construction and Maintenance of Water Wells).

A well log of the completed well shall be submitted by the driller to the Department of Ecology within thirty (30) days of completion of this well. This well log shall be complete and all information concerning the static water level in the completed well in addition to any pump test data shall be submitted as it is obtained.

Use of water under this authorization shall be contingent upon the water right holder's utilization of up to date water conservation practices and maintenance of efficient water delivery systems consistent with established regulation requirements and facility capabilities.

That portion of this authorization relating to irrigation is classified as a Family Farm Permit in accordance with Chapter 90.66 RCW (Initiative Measure No. 59). This means the land being irrigated under this authorization shall comply with the following definition: Family Farm - a geographic area including not more than 6,000 acres of irrigated agricultural lands, whether contiguous or noncontiguous, the controlling interest in which is held by a person having a controlling interest in no more than 6,000 acres of irrigated agricultural lands in the State of Washington which are irrigated under water rights acquired after December 8, 1977. Furthermore, the land being irrigated under this authorization must continue to conform to the definition of a family farm.

Nine Mile Falls, WA 99026

Dear Mr. Morris:

Re: Ground Water Permit No. G3-30115P

Enclosed is Permit No. G3-30115P. We are in receipt of your permit fees in the amount of \$29.20. Under the development schedule contained in the permit, construction work for your project shall be started by August 1, 2004.

We are also enclosing a Notice of Beginning of Construction to be submitted to this office when the work is started.

Please read carefully the enclosed instruction sheet as well as both sides of your permit.

Sincerely,

*Cindy A. Christian*
